AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

Executive Summary

AMIGO INDUSTRIES COMPANY is a private company registered in Tanzania and trading and licensed to deal with production and retail business in Tanzania neighboring region. The company is dealing with importation of household products and stationary materials by wholesale and retail services.

The company business models are aiming to balance the reliability and the quality of goods to satisfy the requirements of the local market and international markets. Currently the company is on formation stage where the company is investing in machinery and capacity to start the productions line. The company have land located in Kigamboni mainly for the building of the said factory.

The company were incorporated in Tanzania with plant and machinery are expected to be imported in between October and December 2023, financed by the capital contributions from the shareholders of Amigo Industries company.

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

1. INTRODUCTION

This business plan has been drawn up regarding the Paper Production in United Republic of Tanzania. This business plan has been drawn up for an operation that would help the company and the Government of Tanzania and neighboring countries to boost the economic growth through provision of high quality and affordable paper products and vacuum flasks

1.1 Background

Paper Products form an important part of daily business and the supply chain management and improvements. The improvement in infrastructures and border clearance within a short time have improved the mobility of goods from Tanzania ports to neighboring countries.

Amigo Industries company operates his business legally with company registration number 79658, tax identification number 111-190-925. The Company comply with all laws and regulations and have got all required legal documents to run and operate in Tanzania

..

1.2 Vision, Mission, Values and Objectives of the Business

1.2.1 Mission

Amigo Industries company committed to provide high quality and affordable paper materials at reasonable costs to all customers and timely delivery.

1.2.2 Vision

Amigo Industries company Vision is to be a leading provider quality products to ensure the value for money and satisfactions for our customers.

1.2.3 Core Values

Caring, Safety, Excellence, Integrity, Customer First, Team-work, Respect, Confidentiality and Dependability

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

1.2.4 Project Objectives

1. High quality products for both local and international markets
2. Sourcing the high quality machine to be installed in our industry with the state of art technology which will consummate with our environment and infrastructures.
3. Ensure the steady supply of goods are delivered within the time frame agreed by cutting the delivery time.

1.3 Products

Paper products

The main activity for the company is the paper production business. The paper productions account for more than 60% of the company revenues. The first step in a typical paper manufacturing process is to produce pulp from wood chip. Softwoods, such as spruce and pine with slender, strong and elastic fibers, are most commonly used species in Tanzania. In general, pulp, which is the raw material of paper, can be manufactured using two methods: chemical pulping or mechanical pulping. Most paper production passes through a process of Calendaring. Calendaring is a process to enhance both physical and mechanical properties of paper as it passes through a specially designed series of drum type rolls as a result of friction. For example, surface finish of newsprint is mainly due to calendaring process. Depending on the type of paper, further finishing processes are needed. Application of coats of various types of chemicals applied to the surface of the paper make it extra shiny for special applications, such as art papers. In general, coated papers are classified into three groups: matte, semi matte and glossy.

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

1.4 RATIONALE AND DESCRIPTION OF THE BUSINESS

Our business has partnered with reputable suppliers for wood companies in United Republic of Tanzania and other countries which creates the readymade solutions for our production lines.

Tanzania is a country of more than 61.7 million peoples which is regarded as faster growing economy. The country is bordered with the 5 East African countries (EAC) and 3 Southern African Development Community (SADC)

The paper market in Tanzania is growing due to increase in middle income. Currently the company is committed to ensure the good supply habits for the peoples and ensure the quality of the products offered to the market are meeting the standards. Our products are crafted by the expatriates who have the experiences in paper production and marketing.

Trucking services are crucial to the development of African economies. Access to regional markets is very sensitive to the efficiency of our products, as these are the dominant mode of brands but our marketing penetrations method will ensure we are gaining the foot stand in the market. More efficient process and quality products are crucial to the development of our industries, and ensure the company is contributing to the country in terms of taxes and employment.

Our company is tapping on the efficiency and the gap by ensuring the company plays the good role to industrialize the country. The country is linking neighboring countries with foreign suppliers through Dar es salaam port. The company wealth of local knowledge ensure seamlessly supply chain management for our products and also the understanding of the regional market.

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

1.5 Operational plan

The plan created has been developed by assessing current situation of manufacturing in Tanzania and improvement in economic conditions in Tanzania.

The company have experienced management, supply chain management, transport and logistics which covers the business in 360 degrees in management of the business spectrum.

The company have experienced management and staffs to offer production and supply chain management to the customers through the centralized productions and distributions chains in each zones within Tanzania.

2. Ownership and Management of the Project

The company Amigo Industries company is owned by experienced individual and company with diverse experiences in manufacturing and supply chain management. The Managing Director of the company is fully responsible to ensure effective management, supervision and going concern of the company.

3.2 Shareholding Structure

The company shareholding structure is depicted below:

Shareholder	Share Held	Share Value	Authorized Share Capital
Mohamedraza Shabir Dhalla	50%	10,000	1,000,000,000
Hasan Mohamedraza Shabir Dhalla	50%	10,000	1,000,000,000

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

3.2.1. Funding

Funds for financing the business was contributed the Directors of **Amigo Industries company** Also the company explored other financing window such as supplier credits and short term financing from financial institutions.

a. Equity

The company shareholders contributed the equity which were used to acquire the plant and machinery, as well as initial working capital.

b. Directors financing

The directors also extended the financing in terms of advance from directors to facilitates the company growth and ensure the company operations are running smoothly

c. Supplier Financing

The company through the good relationship with suppliers can obtain the credits for the supply of inputs and raw materials.

1. ECONOMIC ASPECTS

1.1 Investment Priority

The project investment is in line with government policy and development goals to ensure easy movements of goods and passengers. This includes the goals of the country towards industrialization economy.

1.2 Employment opportunity

The project will creates employment to people who otherwise could not have secured employment and indirectly will create more opportunities. It also develops skills to the employees on a continuous basis that will have a multiplier effect and associated demand for support services.

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

1.3 Government revenue

The government is expected to earn greater amount of income in form of taxes such as corporate tax, Value Added Tax, Excise duty, Employment taxes such as pay as you earn and skills and development levy. Also other government fees such as licenses and permits.

1.4 Economies of scale

In the t industry, the aspect of economies of scale comes in when bulk buying is done. Production and Transporting products in bulk will cost the customer or organization less money than producing and transporting the same products in small portions. Our company can reduce its expenditure by increasing the productions and good supply chain to ferry the goods. This aspect has become a new trend in the manufacturing industry, where the cost is minimized through the application of large scale processes.

In most cases, the cost of a single transportation exercise has a fixed cost. Thus, the organizations are taking advantage of this aspect to acquire large vehicles or containers that carry a huge number of products. This aspect reduces the number of trips being made to move goods and services from one location to the other. Thus, the economies of scale have played a significant role in reducing the variable cost associated with many trips where small numbers of products are transported.

In addition, transporting products in bulk has enhanced the safety and security of items by reducing the chances of losses. Transporting goods in large quantities requires special packaging such as containers. This strategy has played a significant role in preventing the loss of a small number of products while they are in transit.

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

In fact, the company fleets will enable to be competitive in the industry by increasing the capacity to do the bulk transit haulage, which we have the good reputations in the market and the customers in neighboring countries.

AMIGO INDUSTRIES COMPANY

2. MARKET ASSESSMENT

5.0 Industry Analysis

For Amigo Industries company to have the Centre running the Key Success Factors include use of advanced technology for managing the vehicles, Procured quality trucks which ensure the return on investment, Good management, networking abilities, timely delivery, lowest product sourcing cost, accessible location and other factors deem to be important. .

The market for distilling and blending spirits is still robust in Tanzania fuelled by improvements in trunk roads and regional roads, also the business relationship and proximity of the country.

5.1. Rival Analysis

The market study established that the competition level is moderately high and the market for paper Production and its associated products as stable in Tanzania. With a quality plant and machinery, cutting the delivery time, managing the supply chain placed the company in a competitive positions.

Therefore, managing the supply chain understanding the clients' needs will positively improve the product marketability and gain a good market share. With the good procurement policy, we will be in positions of having stable prices to curb the problem of price fluctuations which had been common in mobile phones and quality after sales services which creates confidence for our customers.

5.2 Strengths, Weaknesses, Opportunities and Challenges (SWOC)

The analysis of key strengths and weaknesses that emanate from the internal environment and opportunities and challenges emanating the project from external environment is depicted in Table 5.2 below

Table 5.2: SWOT Analysis for Amigo Industries company

STRENGTH	WEAKNESSES
<ul style="list-style-type: none">• Bulk Sourcing• Steady supply and good supply chain• Focus on affordability's• After sale services which is very key in customers confidence for our products	<ul style="list-style-type: none">• After sales services is expensive due to wide coverage of the country
OPPORTUNITIES	THREATS/CHALLENGES
<ul style="list-style-type: none">• There are more than 61 million peoples in Tanzania.• The increase in middle class fuels the consumptions of high quality products.• Connecting the customers with financing options for the mobile phones	<ul style="list-style-type: none">• Technology is evolving faster but we got this sorted

5.3 Strategic issues-Priority Areas for the Project Plan

Through situational analysis and discussion with the members of management, the followings were established as the priority issues to be addressed in the next three years of this Business Plan:

- Focus on marketing strategies by doubling the annual productions and sales within the country and also establishing the export market.
- Foster the relationship with supplier financing institutions, transport and logistic partners in Tanzania
- Ensuring the company provide high quality products at the reasonable cost, strength and care about customer needs.
- Maintaining effective and close communication with both customers and employees.
- Ensuring on time delivery of products to customers
- Heavily focusing on after sales services to our customers to ensure the products are offering the intended satisfactions

AMIGO INDUSTRIES COMPANY
Business Plan – PAPER PRODUCTION

5.4 CONCLUSION

The demand and market for quality Paper Production in Tanzania is still not utilized in fully and there is a potential of doing good business by playing part to ensure the quality products are produced and supplied within the country and for the exportation purposes.

This makes the project, relevant in the country like Tanzania and neighboring countries in Africa when there is rapid growth of population which triggered by improvement of internet infrastructure, water sector and construction industry. The company will fuel the development through the creations of employments and contributing to the country through paying taxes.

The financial returns from the project are therefore expected to be adequate to reflect the conservative approach to revenues and associated cost projections as well as long term view by the shareholders.
