Reason for extension

Due to unanticipated disruptions in the global supply chain and difficulties obtaining the required equipment, Phose for Africa is requesting an extension of the Certificate of Incentives, which has resulted in delays in project completion. We are now nearing the end of setting up our operations at Kimbiji Kijaka in spite of these challenges. With the extension, we will be able to finish the project, grow our business, and demonstrate our dedication to regional economic growth by bringing on more workers and assisting with community projects. In order to meet our investment objectives and support Tanzania's industrial development, this extension is crucial."
