- **Project Objectives:** Main Objective of the Biopharm Laboratories is to manufacture research backed innovative and affordable essential medicines.
- To meet local demand and reduce country's dependency on imports and to increase its self-sufficiency in producing essential medicines.
- Initially this project aims to develop injectable forms of Cephalosporins and Beta Lactam tailored to the needs of the Tanzanian market. Given the country's substantial burden of infectious diseases and the need for affordable medical solutions, these products will help meet the demand for effective, quality antibiotics.
- Simultaneously Clean room panel manufacturing facility will start along with injectable facility to cater the inhouse needs of our facility.
- In the second phase we will plan for manufacturing of Cephalosporins, Beta Lactam and general medicines in OSD, liquid oral forms.
- In the third phase we will plan for external preparations facility like ointments and creams for both antibiotics and general products.
- In the fourth phase we will plan for Biological APIs and formulations of the same.
- This project will also provide contract manufacturing services to all international manufacturers which in turn will reduce the burden of supply chain issues and cut the costs substantially.

THIS PROJECT OF BIOPHARM WILL BE FIRST OF IT'S KIND: INTEGRATED PHARMACEUTICAL FORMULATIONS, API AND CLEAN ROOM PANEL MANUFACTURING FACILITY IN KIKONGO, TANZANIA.

Capacity: Formulations: Injectables three lines, OSD forms 3 lines and Liquid orals 2, External preparations 2 lines, Biological API manufacturing 3 blocks and clean room panel manufacturing block.

Employment: Foreign: 45 Local: 155 Total: 200

Implementation Period: Immediately we will start panel manufacturing and construction of manufacturing sheds for Injectable Formulations, simultaneously work on all legal and registration formalities. In a span of 10 years, we will complete the project.

Project Location

Site/Plot/Block No.: 54 and 55 at Kikongo, Kibaha District
