Subject: Application for Registration of Maize Flour Milling Project

Dear Sir/Madam,

Mbasira Food Industries Limited hereby submits this application for the registration of a maize flour milling project located at Plot No. 4,5, Malangali Street, Malangali Ward, Sumbawanga District, Rukwa Region. This project aligns with Tanzania's industrialization agenda and aims to contribute significantly to the agricultural and food processing sectors.

The maize flour milling plant has a production capacity of 100 metric tons per day, ensuring a steady supply of affordable, high-quality maize flour to meet the growing demand from households, schools, restaurants, and food processors. The project is expected to generate employment across the value chain, enhance food security, and support smallholder farmers by providing a reliable market for locally grown maize. Additionally, it will reduce post-harvest losses, contribute to import substitution, and strengthen Tanzania's economic self-sufficiency.

Mbasira Food Industries Limited is committed to sustainable business practices and long-term growth. By investing in modern milling technology and adhering to industry best practices, we aim to ensure efficiency, quality, and competitiveness in the market. We seek registration with the Tanzania Investment Center to facilitate project implementation, access available investment incentives, and contribute to the economic development of the Rukwa region and the nation at large.

We appreciate your consideration of this application and look forward to your positive response. Please find attached the required supporting documents for your review. Should you require any further information, do not hesitate to contact us.

Yours sincerely,

Ramadhani Sigwa Balukuli
Executive Cairman
