5.0 ACTIVITIES PLANNED FOR THE NEXT THREE YEAR

Completion of construction of gas filling station and installation of machines

6.0 PROBLEMS

Explain problems, which the management is encouraging in executing the project and the steps being taken to solve them

- Land acquisition process is too long and very costing
- Inconsistency in water, power availability
- Difficulties in obtaining fiscal incentives
- Difficulty in obtaining suitable industrial plot

The management is planning to request some of the challenges to be resolved the Government, and the one within the management have been resolved.

7.0 EXPLAIN THE PROPOSED SOLUTIONS

Conducting stakeholders meeting and have a detailed discussion and proposed solutions

8.0 FUTURE PLANS

To expand the project by acquiring land for gas filling stations

9.0 RECOMMENDATIONS AND ANY OTHER COMMENTS

- The Government should set aside dedicated land for gas filling stations and investors be allocated at reduced cost
- The Government should provide basic fiscal and non-fiscal incentives for CNG investments
- The Government should put very friendly policy, laws, guidelines etc. with specific fiscal and non-fiscal incentives in order to attract investors to develop industrial parks
