Date: 5th August 2025

To:

The Director General

Tanzania Special Economic Zones Authority (TISEZ)

Dar es Salaam, Tanzania

Subject: Request for Waiver of Registration Fee for The Southern Sunflower Agribusiness Project

Dear Sir/Madam,

Greetings from The Divine Love SSP Limited.

We respectfully write to request a waiver of the registration fee required for the registration of The Southern Sunflower Agribusiness Project under the Tanzania Special Economic Zones Authority (TISEZ). This request is made in consideration of the project's exceptional scale, national significance, and alignment with Tanzania's industrialization and inclusive economic development goals.

The Southern Sunflower Agribusiness Project is a transformative USD 912 million initiative that seeks to empower over 1,020,000 smallholder farmers across 12 regions in Southern and Central Tanzania. Through the cultivation of over 2 million acres of sunflower and the establishment of five large-scale sunflower oil processing factories, the project is poised to:

Position Tanzania as the largest producer of sunflower oil in Sub-Saharan Africa;

Generate substantial export earnings and foreign direct investment;

Reduce the national edible oil import bill;

Create over 200,000 direct and indirect jobs, particularly among youth and women in rural areas;

Contribute to national food and energy security through value addition and by-products.

The project is being implemented by a Tanzanian company, fully owned by Tanzanians, and is strategically designed to be aligned with:

The Government's Agriculture Sector Development Programme II (ASDP II);

The Third Five-Year Development Plan (FYDP III);

The objectives of the African Continental Free Trade Area (AfCFTA).

We believe that waiving the registration fee will not only ease the financial burden during the critical pre-implementation stage, but also demonstrate the Government's support for transformative, inclusive agribusiness investments led by local enterprises with high national and regional impact.

We remain committed to fulfilling all regulatory requirements and maintaining transparency and accountability throughout the project lifecycle.

We sincerely hope that TISEZ will consider this request favorably and support our mission of unlocking Tanzania's agricultural potential for inclusive economic growth.

Thank you for your continued collaboration and support.

Yours faithfully,

.....
Fr. Charles Gatahwa Bartholomew, OSB
