## APPLICATION FOR REGISTRATION WITH TANZANIA INVESTMENT AND SPECIAL ECONOMIC ZONES AUTHORITY [TISEZA]

Dear Sir/Madam,

We, **HHS Best Health Limited**, are pleased to submit our application for registration with **Tanzania Investment and Special Economic Zones Authority [TISEZA]**.

As part of this application, we have attached all the necessary and required documents for your review and consideration.

We are a health-focused company with roots in **Turkey**, and we are excited about the opportunity to establish a **modern diagnostic centre here in Tanzania**. Our goal is to bring high-quality, internationally benchmarked medical diagnostic services closer to the people of Tanzania — services that are timely, reliable, and affordable.

The decision to expand into Tanzania stems from the strong potential we see in the country's growing healthcare sector and the warm, business-friendly environment. We believe that by investing in diagnostic technology and training, we can contribute meaningfully to improving healthcare outcomes in Tanzania, while also creating local employment and skills development opportunities.

We look forward to working closely with **TISEZA** and other relevant authorities to make this vision a reality.

Thank you for your kind attention to our application. Please do not hesitate to contact us should you require any further information or clarification.

Warm regards,

**HHS Best Health Limited**  
Managing Director  
**RESUL FIDAN**
