APPLICATION FOR CERTIFICATE OF INCENTIVES

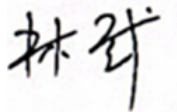

Please refer to the heading above.

Santai Investment Company Limited is a company registered under the laws of Tanzania. Currently we plan to invest in a poultry project. This project will include poultry production, raising, slaughtering and packaging. Our targeted initial market is local but we also want to access the international market. In this project we plan to invest a total of US\$ 613,000 and we expect the project will directly employ 111 Tanzanians and indirectly employ 500 locals.

Since our business idea is promising as per our analysis, I am writing to you to present our application for registration of this project with the Tanzania Investment and Special Economic Zones Authority. Our aim is to enjoy the incentives offered by the Tanzania Investment and Special Economic Zones Authority.

With this letter I attach the required documents for your references and processes.

Yours faithfully,

Lin Wu

Director
