RE: REQUEST FOR EXTENSION OF IMPLEMENTATION PERIOD FOR FRUIT PROCESSING PROJECT

Dear sir/madam,

We, U Fresh Food Limited, a limited liability company incorporated under the laws of the United Republic of Tanzania and registered with the Tanzania Investment Center with certificate number 20212302 as of 26th May 2024. Copy of the said certificate is herewith attached for your ease of reference.

We are writing to request an extension of the implementation period for our fruit processing project. Our above mentioned certificate was issued on the 26th day of May 2024 and the operative date as per the certificate was 16th February 2025.

While we have made substantial progress in the initial phases of the project, unforeseen challenges have arisen that necessitate an extension of the implementation period. These challenges include delays in obtaining necessary permits, unexpected logistical issues related to equipment procurement, and unanticipated complexities in the construction process.

Extending the implementation period will allow us to address these challenges effectively and ensure the successful completion of the project without compromising on quality or safety standards. Additionally, it will provide us with the necessary time to explore alternative solutions and mitigate any potential risks that may arise during the remaining phases of implementation.

We remain fully committed to the successful completion of the fruit processing project and are confident that with an extension of the implementation period, we will be able to deliver a facility that meets and exceeds expectations.

Thank you for considering our request. We look forward to your favorable response.
