## THE EXECUTIVE SUMMARY

### Basic Information and Details

#### BASIC INFORMATION

#### DETAILS

Name of Business	KWALITO LIMITED
Physical Address	IRINGA, KILOLO IFUWA VILLAGE
Postal Address	P.O. Box , -Dar Es Salaam
Telephone	+254718777200
Email	Pa1pasupulati@gmail.com
TIN	186-082-427
Certificate of Incorp. No.	186082427

### Company Description

Kwalito Limited Company is a privately owned company fully run by Kenyan and Indian investors with the quest to establish a state of the art facility/processing plant for the processing of fruits (mainly avocados), vegetables and nuts for exporting to foreign markets.

The company is committed to use the latest technology and offer quality and reliability to its customers all over the world.

### Services Description

The Company is set to engage into the business of agro processing, processing mainly fruits specifically avocados for exportation to foreign markets.

**Location**

The company is located Regus Offices, in Dar Es Salaam. However the company will engage in the processing of avocados in Kilolo- Iringa region at Ifuwa Village on parcels of land as purchased by the company for such purposes.

The company has chosen such an area due to it being an industrial area and fit for the purposes of the intended production. The area is easily accessible and would make it easy to transport the Product.

## **MARKET AND MARKETING**

### **Market overview**

The targeted clients are corporate companies and the whole population including when production peaks up to export abroad.

The company is determined to take part in combating the widening gap between demand and reliable supply of freshly processed avocados in the world. It is projected the company will reap 20% of the market share by the peak of production.

### **Clients Description**

The business' existing and potential clients list include one-time clients and contract clients from all parts of the country and across the borders.

Our company will concentrate on creating a clientele base and retain it through offering quality services on demand and meeting standards and precision of the customer needs.

Some of these clients include;

- a) Supermarkets
- b) Foreign food stalls and markets
- c) International corporate clients and other regional clientele within the EAC

The shareholders expects that these clients will continue with their loyalty to the company's services and that it will be able to raise an expanded clients' base by penetrating the market to attract new clients.

The revenue will be made throughout the year because the needs for these services are not seasonal. This implies a constant consumption of our services.

## **Competition**

The company expects a reasonable competition from other producers or exporters of avocados. However, the company is deeply committed to making a lasting impression by ensuring it meets the competitive advantage and providing top-notch services in the avocado industry.

Competitive edge is the positioning strategy with clients. This will be done by building a business based on long-standing relationships with satisfied clients simultaneously building defenses against competition. The longer the relationship stands, the more it helps clients understand what the business offers them and why they need it.

Above all the mentioned factors, the business has a competitive pricing position as it obtains inputs at competitive prices from its market pooling, research, and sourcing strategy.

In addition, the competitive advantage to this company is the strategic location of the business, client loyalty, competent, experienced, motivated staff, and the speed and quality with which it offers its services utilizing the latest state-of-the-art technology.

## **Marketing strategies**

The company will make use of the following marketing strategies for the purpose of reaching a mass of targeted clients and curbing existing competition.

Market-oriented approach- the company will employ a market-centered approach whereby officers from the company will search and arrange visits to various potential clients for familiarity and relationship building.

The company will make use of its own website and design social media pages for daily posting of its products and services offered. This will make it easy for potential

Clients to see when making choices. This will go hand in hand with making infographics, paid ads, video adds and email marketing (for corporate potential clients). Also, the company will seek registration on the local websites and Google ads

The company will search and lobby for partnerships and engagement into business with government authorities and organizations.

The company will also make use of promoting the use of its products by offering annual gifts for its best clients. This will be arranged and include media houses forthe public to see and be inspired.

### **Costing and Pricing**

The pricing of business products or/and services is important because it will have a direct effect on the success of any business. Though pricing strategy and computations can be complex, the basic rules of pricing are straightforward: All prices must cover costs.

- The best and most effective way for KWALITO LIMITED is lowering costs so as to lower the price to be affordable to thepotential clients and compete in the market.
- Prices must reflect the dynamics of cost, demand, changes in the market and response to competitors.
- KWALITO LIMTED's prices are established to assure continued sales and growth. The company bases on cost plus approach in estimating prices for its services.
- Service utility, longevity, maintenance and end use must be judged continually, and target prices adjusted accordingly.

Also, the price is set to preserve order in the market place recognizing the market leadership role of the business.

The method of establishing price is cost-plus pricing, which assures that all costs, both fixed and variable, are covered and the desired profit percentage is attained.

**Table 2.1 Marketing Costs for the 2025/26**

## **MANAGEMENT PLAN**

### **Company Profile**

Kwalito's management is keen to keep up with the right strategies to be able to serve the market with what clients need and a good word of mouth circulating on one to one satisfied client to another. The company is determined to expand and acquire long term sustainable growth.

Recruitment and selection of people will be constantly made in a way to ensure those only competent, who are able to carry out the company's mission, are retained in the office.

### **Management and key personnel**

The company is under the serious direction and control of its owners. These are the general overseers of all business activities on day-to-day basis.

### **Support Personnel**

Besides the Directors, the company has been pegged on the services of 40 women and men to be casual labour, and about 15 permanent staff working for man days on a scheduled arrangement who, in their respective positions keep the business growing from one stage to another.

The directors are keen to maintain calm relationships with the employees by keeping a friendly environment for them to work and constantly responding to needs.

## **FINANCIAL PLAN**

### **Introduction**

This section covers various aspects in relation to the company's financial performance, plans and projections. It gives a summary of the owner's assumptions and the projected cash flows and other financial matters.

### **Considerations and assumptions**

The following assumptions hold for the financial projections presented in the following sections and the attachments;

- a) It is assumed that inflation rate will remain at 7% over the year 2025- 2026-2027
- b) The company operational expenses will increase by the inflation rates
- c) Exchange rates will remain fairly stable at the current rates
- d) The legal and regulatory frameworks remain stable for all the coming twelve months
- e) Sales of the business will grow at an average rate of 30% per year.
- f) Cost of sales is approximately 31% of the sales revenue
- g) Ending inventory will be 30% of the total purchases of the year.
- h) The company will have receivables of 30% of the sales at the end of the year.
- i) 30% of the year corporate tax payable will be paid after the preparation of the financial statements and deduction of expenses.

### **Three years Sales Forecast**

The sales forecast gradually increases over the year 2025/26 and comprises total sales of TZS 376,977,435. Yearly forecasts are summarized in the table below.

**Table 2: Sales Forecasts**

	2024/25	2025/26	2026/27
SALES (TZS)			
Government and other corporate clients	100,000,000	100,000,000	100,000,000
Supermarkets	70,000,000	70,000,000	70,000,000
Exportation	100,000,000	100,000,000	100,000,000
Total Sales	270,000,000	270,000,000	270,000,000
Cost of Sales	- 50,000,000	- 50,000,000	- 50,000,000
Gross Profit	220,000,000	220,000,000	220,000,000

**Figure 1: Sales forecasts from 2025- 2026**

**NB: The profit is before computation of corporate taxes as due.**

This amount will complement the equity funds planned for increasing the working capital so as to be able to reach the highly demanding markets in the world that is still undersupplied with the services.

### **Sources of Funds**

The major source of funds for KWALITO LIMITED as to start with is the equity capital as injected in by the founding shareholders of the company , also will be based on sales revenues from clients in their categories. This will continue to be the main source for the coming three years with the expanded service dimensions on similar product line.

It is estimated that the business will be able to increase its revenue by 30% in each financial year.

### **Uses of Funds**

A large portion of the funds is expected to be used for acquiring office materials and covering the operation expenses including marketing and office making. Other uses are routine expenditure during the operations of the business whose summary for the twelve months to come is as presented in the financial projections.

### **Financial Discussions (Liquidity)**

Cash position of the business is expected to be good and positive with the business being able to meet its recurring obligations in time. However, the expansion plan will need extra funding, the amount being requested which will boost its working capital after repayment of the loan and accumulated profit ploughed back into the business, in which case the company opts for expansion for a loan.

The attached cash flow projections reveal that the business's liquidity will remain sound with ability to meet all financial obligations together with the cost of the external financing funds.

### **(a) Profitability**

As per the business's projections, revenues will grow at 30% yearly while many expenses account outside the costs of sales will remain around the same figures or increase at a very small rate. Gross margin will be at 60% while Net profit margins will be at 40%. This is a desired outcome for the company as it leads to maximization of her wealth. Therefore, the business is in line with the company's interest.

### **(b) Stability (Financial Position)**

The business's financial position is projected to be stable for the whole of the year 2025/26 and the other consecutive two years later. Financing of assets will be a mixture of business entity' equity and the bank loan (which will finance the expansion of the project and acquisition of more land)

The company is used to buy in cash from the named business partners in the above discussion. However, the increased operations capacity may push the management to discuss and negotiate with the major partners for attractive and affordable credit terms. These are not included in the cash flow projections because they will depend on availability of the terms upon acceptance of the proposal.

### **Finance Required**

The finance being requested in case the company opts for a loan is for financing a major expansion of the business where by the administration intends to increase working capital and expand the operations that will require additional marketing efforts, facilities and manpower. The company expects to benefit from the economies of scale by buying in bulk and consequently reduce operating costs like ordering costs.

## **ANTICIPATED RISKS**

The following are some of risks relevant to this business undertakings:

### **5.1 Competition**

This is a threat that cannot be avoided as the business seems to be profitable and worth of an undertaking. Due to growing economy, new entrants are expected to emerge and add up to the existing threat from the existing competitors discussed above.

#### **5.1.1 Remedies;**

The management is prepared to face the competition by offering the best quality services and products it can in order to build a good clients' loyalty. It will also make sure that it renders services on time in order to win clients' interests and satisfaction.

### **5.1 Price and Exchange Rate Fluctuations**

This has recently marked a big problem in business operations; prices and exchange rates keep on rising irregularly and affect the business performance together with the income and expenditure estimates.

#### **5.2.1 Remedies;**

The business's strategy to overcome this risk is for negotiations of prices with the business partners in earnest so as to where possible, fix the purchase prices in advance using the forward contracts with the suppliers.

## **ECONOMIC AND ENVIRONMENTAL PRIORITIES**

The business's operations are environmentally friendly since they do not have a direct impact as regards to environmental degradation or pollution. It is in the company's policies to adhere to all country and safety regulations including environmental conservation. The materials used will be those authorized by TBS and following NEMC guidelines.

## **CONCLUSION AND RECOMMENDATION**

The detailed discussion in the previous sections reveals a potential for the company's service market. This shows that the company will be able to sale the services and realize its investment and returns and pay the applied external finance accordingly.

The management team is well experienced and equipped to lead the organization towards achieving the set objectives and also it has a competent work force to support the move.

Financial analysis also depicts that the business is profitable and will be able to collect funds from sales to fully service the loan facility( in case the company borrows) and meet all other obligations as they fall due. This can be referred to in the projected financial statements.
