**RE: APPLICATION FOR CERTIFICATE OF INCENTIVES**

Please refer to the heading above.

We write to formally submit an application for the grant of a Certificate of Incentives from the Tanzania Investment and Special Economic Zones Authority (TISEZA) in accordance with the applicable investment laws and regulations.

Tanzania Sulphur Company Limited is a company duly incorporated in the United Republic of Tanzania on 9 November 2016 holding a certificate of incorporation number 131017. The Company principal business objective is manufacturing of pesticides and other agrochemical products, and to support the agricultural sector through the production of sulphur-based agrochemical products, including the planned establishment of a sulphur grinding plant in Mtwara.

The Company intends to establish a state-of-the-art Sulphur Grinding Plant at Pemba Mvita, Mtwara, Tanzania, for the production of premium-grade Finely Ground Sulphur Powder (minimum 325 mesh). The project aims to support agricultural productivity by supplying high-quality sulphur inputs to cashew nut growers and diversified crop producers within Tanzania and across the East African region.

The proposed plant will be strategically located in Pemba Mvita, Mtwara, in close proximity to the Port of Mtwara, thereby enabling efficient importation of raw sulphur, which constitutes the principal production input for the production process. The location will also facilitate efficient distribution of the finished product to the Company's primary target markets, particularly agricultural producers in southern Tanzania and neighboring East African countries.

Please find attached the Company Resolution authorizing the submission of this application, together with other supporting documents for your review and consideration.

Should you require any additional information or documentation, please do not hesitate to contact us.

Sincerely,

**Raouf Ahmed Ragaie Bakry,**  
**Director**
