**Dear Mr. Gilead Teri,**

**Re: APPLICATION FOR A CERTIFICATE OF INCENTIVES FOR A CHICKEN FARM PROJECT.**

On behalf of Sunleaf Smartfarms Limited, I am pleased to submit this application for registration of our project and issuance of a Certificate of Incentives under the Tanzania Investment Act.

Our company is embarking on a large-scale poultry farming project, with a focus on chicken production (both broilers and layers). The project will be established in Dodoma Region and will cover the entire poultry value chain including: Rearing of broiler chickens for meat production, Layers for egg production, On-farm feed processing using locally sourced raw materials, Cold storage and processing facilities to ensure food safety and value addition and Distribution channels to support both domestic markets and potential exports.

This investment will contribute significantly to the government's agenda on food security, job creation, import substitution, and rural industrialization. The project will also create opportunities for smallholder farmers through contract farming and input supply chains, strengthening the poultry sector in Tanzania.

In order to successfully implement this project, we intend to import modern machinery and equipment for poultry housing, feed processing, and cold storage. We therefore kindly seek the TIC Certificate of Incentives to access the tax reliefs and facilitative services available for strategic investments of this nature.

Please find enclosed our detailed business plan, company registration documents, feasibility study, and other supporting documents as required.

We sincerely appreciate your consideration and look forward to a favorable response. Should you require any further details or clarification, we are available for a meeting at your earliest convenience.

You can contact us through; Tel: +255757900049 or +255689553766 and Email: sunleafsmartfarms@gmail.com

**Yours faithfully,**
