**RE: APPLICATION FOR CERTIFICATE OF INCENTIVE FOR 100MW KISIMA
SOLAR PV PROJECT AND REQUEST FOR STRATEGIC INVESTOR STATUS**

Dear Sir/Madam,

On behalf of TotalEnergies Marketing Tanzania, we hereby submit our formal application for the Certificate of Incentive for our proposed 100MW Utility-Scale Solar Photovoltaic (PV) Project, to be located at Kisima Village, Mtera Ward, Mpwapwa District, Dodoma Region.

This project aligns with Tanzania's national priorities in renewable energy development and is expected to contribute significantly to sustainable power generation, job creation, local development, and climate resilience. The estimated total investment cost is approximately USD 92 Million.

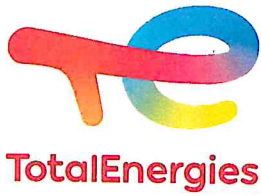

In view of the size, socio-economic impact, and long-term contribution of this initiative to national development, we respectfully request that the project be considered under the Strategic Investor category as guided by the relevant provisions of the Tanzania Investment Act.

We have initiated key project development steps including engagement with TANESCO on the Power Purchase Agreement (PPA), Technical site assessments, and environmental screening.

Please find attached all required documentation in support of this application. We look forward to your favorable consideration and appreciate TIC's continued support in facilitating impactful investments in the energy sector.

Yours faithfully,

Vyuvian Katala
