

DURAPOWER INESTMENT LIMITED

BUSINESS PLAN

Executive Summary

DuraPower Investment Limited is a starting company located in Tanzania and going to begin its activities around TRA road, plot number 50, Block D, Mwenge street, Kinondoni Ward Kinondoni – Dar es Salaam. This company is already registered by BRELA and is expected to begin operating as soon we finish all the necessary registrations. The company has already established a stable environment to manufacture standard and lighting and cooling products. As a company we believe to start in Dar es salaam and later spread in other part of Tanzania, East Africa and Africa at large. We believe as far as Tanzania as concerned, Dar es salaam is highly populated than other regions and when it comes to East Africa Tanzania is still highly populated than, Uganda, Kenya, Rwanda, Burundi, and South Sudan. For that matter our company is strategically located since there is room for progress since there is market for its products and services.

DuraPower Investment Limited has two Directors and two shareholders and all are Chinese nationals.

1. LIU JINQIAO born on 16th October 1975
2. LIN QIUHUA born on 3rd September 1984

The facility is in the process of acquiring government approval for the kind of business we want to run and it is easily accessible and we are deliberate about that to facilitate easy movement of raw materials (Metals,plastics,copper,lithium,tin,silver,nickel and aluminum etc.) and finished products (Motors,Generators,transformers,batteries,accumulators,radios,tvs,lapto PS, global position systems, music players and etc.). We are in manufacturing of electric motors,

generators, transformers, batteries, accumulators, electrical equipments and other domestic appliances in order to get standard Motors, Generators, transformers, batteries, accumulators, radios, tv s, laptops, global position systems, music players and many other Electric devices.

We are also in business to make profits and at the same time to give our customers value for their money; we want to give people and businesses who patronize our products and services the opportunity to be part of the success story of Durapower Investment Limited.

We are aware that there are several big scales and small-scale Electric and electronic manufacturing companies scattered all around in the United Republic Tanzania whose products can be found in major Towns of Tanzania.

This is why we spent time and resources to conduct our feasibility studies and market survey so as to enable us locate the business in an area that will support the growth of the business and also for us to be able offer much more than our competitors will be offering.

We ensured that our facility is easy to locate and we have mapped out plans to develop a wide distribution network for wholesalers all around Dar-es-salaam, other regions of Tanzania, East Africa, Africa, and other parts of the world as well.

Much more than producing standard Electric devices, our customer care is going to be second to none. We know that our customers are the reason why we are in business which is why we will go the extra mile to get them satisfied when they visit and purchase any of our Products and also to become our loyal customers and ambassadors.

Durapower Limited will ensure that all our customers (wholesale distributors) are given first class treatment whenever they visit our Depot / Plant. We have a CRM software that will enable us manage a one-on-one relationship with our customers (wholesale distributors) no matter how large the numbers of our customer base may grow too. We will ensure that we get our customers

involved when making some business decisions that will directly or indirectly affect them.

DuraPower Limited is going to operate a standard and licensed Electric Manufacturing company whose products will not only be sold in Dar-Es-Salaam but also throughout the United Republic of Tanzania and the world at large. We are in the Electric Manufacturing business to make profits and also to give our customers value for their money. These are some of the products that we will be offering;

Motors

-Generators

-Transformers

-Batteries

-Accumulators

-Radios

-Tvs

-Laptops

-Global position systems

-Music players

-Phones

And other domestic devices

Our Vision Statement

Our vision is to establish standard Electric Manufacturing Company whose products will be not only be sold in Dar-es-salaam, but also throughout the United Republic of Tanzania, East Africa, Africa and in other parts of the world.

- Reports defects, accidents or violations

DuraPower Investment Limited Business Plan – MARKET ANALYSIS

- **Market Trends**

If you are conversant with the trend in the Electric manufacturing industry, you will quite agree that despite the fact that there are competitions in different stages of the industry. That is competitions amongst bigger corporations such as Electro Thermal Supplies & Services, Admire Company, Freedom Electronics and also competitions amongst smaller and medium scale Electric Manufacturing companies.

Most Manufacturing Companies are leveraging on creativity in terms of Evaluation and marketing to continue to stay afloat in the industry.

Lastly, another trend in the Electric manufacturing industry is the adoption of eco – friendly approach towards the production and manufacturing of Electronics. As a matter of fact, the industry’s adoption of eco-friendly practices will likely persuade environmentally conscious consumers to buy its products, while increasing operators’ efficiency.

- **Our Target Market**

When it comes to selling electronic products, there is indeed a wide range of available customers. In essence, our target market can't be restricted to just a group of people, but all those who resides in our target market locations.

In view of that, we have conducted our market research and we have ideas of what our target market would be expecting from us. We are in business to engage in wholesale distribution and to retail Electronics to the following groups of people;

Hotels

Public and Private institutions

- Bars and lodges.
- Restaurants and Canteens
- Event Planners, Parties and Corporate Functions
- Corporate Executives
- Government institutions
- Government officials
- Business people
- Military men and women
- Sports Men and Women
- celebrities
- Students
- Tourists
- Everybody in our target market location

Our Competitive Advantage

A close study of the Electric manufacturing industry reveals that the market has become much more intensely competitive over the last centric and proactive if you must survive in this industry.

decade. As a matter of fact, you have to be highly creative, customer

compete favorably with other Electric manufacturing companies in so We are aware of the stiffer competition and we are well prepared to

Dares salaam and throughout the United Republic of Tanzania and Africa.

DuraPower Investment Limited is launching a standard Electric brand that will indeed become the preferred choice of residence of Dares salaam and every city where our Electric products will be retailed.

Part of what is going to count as competitive advantage for DuraPower Investment Company is the vast experience of our management team, we have people on board who are highly experienced and understands how to grow business from the scratch to becoming a national phenomenon.

So also, the wide varieties of Electric products in terms of Resistance, capacity, latency, phase shift, gain, power handling, rise and fall times, frequency response, and bandwidth properties etc al that we produce, our large national distribution network and of course our excellent customer service culture will definitely count as a strong strength for the business.

Lastly, our employees will be well taken care of, and their welfare package will be among the best within our category (DuraPower *products*) in the electric manufacturing industry, meaning that they will be more than willing to build the business with us and help deliver our set goals and achieve all our aims and objectives. We will also give good working conditions and commissions to freelance sales agents that we will recruit from time to time.

DuraPower Business Plan – SALES AND MARKETING STRATEGY

Before choosing a location for DuraPOwer Investment Company and which kind of Electric products to produce, we conducted market survey

and feasibility studies in order for us to be able to be able to penetrate the available market in our target market locations.

We have detailed information and data that we were able to utilize to structure our business to attract the numbers of customers we want to attract per time and also for our products to favorably compete with other leading brands in the United Republic of Tanzania and East Africa.

We hired experts who have good understanding of the Electric manufacturing industry to help us develop marketing strategies that will help us achieve our business goal of winning a larger percentage of the available market in Dares salaam and other cities in the United Republic of Tanzania and E. Africa.

In order to continue to be in business and grow, we must continue to sell our products to the available market which is why we will go all out to empower our sales and marketing team to deliver our corporate sales goals. In summary, DuraPower Investment Limited will adopt the following sales and marketing approach to sell our Electronics;

- Introduce our Electric brand by sending introductory letters to residence, Electric merchants and other stakeholders in Dares salaam and other cities both in the United Republic of Tanzania and East Africa.
- Open our Electric manufacturing company with a party so as to capture the attention of residence who are our first targets
- Engage in road show in targeted communities from time to time to sell our products
- Advertise our products in community-based newspapers, local TV and radio stations
- List our business and products on yellow pages (local directories)
- Leverage on the internet to promote our brands
- Engage in direct marketing and sales
- Encourage the use of Word-of-mouth marketing (referrals)

DuraPower Business Plan – Publicity and Advertising Strategy

Despite the fact that our Electric manufacturing machines are standard with a wide range of Electric products that can favorably compete with other leading brands, we will still go ahead to intensify publicity for all our products and brand. We are going to explore all available means to promote DuraPower products.

DuraPower Investment has a long-term plan of distributing our Electricals in various locations all around the United Republic of Tanzania and East Africa which is why we will deliberately build our brand to be well accepted in Dares salaam before venturing out.

As a matter of fact, our publicity and advertising strategy is not solely for selling our products but to also effectively communicate our brand. Here are the platforms we intend leveraging on to promote and advertise DuraPower Products;

- Place adverts on both print (community-based newspapers and magazines) and electric media platforms
Sponsor relevant community programs
Leverage on the internet and social media platforms like; Instagram, Facebook, twitter, et al to promote our Electric brand
- Install our Bill Boards on strategic locations all around major cities in the United Republic of Tanzania and East Africa.
- Engage in road show from time to time in targeted communities
- Distribute our fliers and handbills in target areas
- Position our Flexi Banners at strategic positions in the location where we intend getting customers to start patronizing our products.
- Ensure that our Electricals are well branded and that all our staff members use our customized electrical devices, and all our official cars and distribution vans are customized and well branded.

Our Pricing Strategy

When it comes to pricing our Electric products there are two sides of the coin. We are aware of the pricing trend in the Electric manufacturing industry. But our prices will depend on the Resistance, capacity, latency, phase shift, gain, power handling, rise and fall times, frequency response, durability and bandwidth properties, build quality, mass production, design sophistication and labor costs,

In view of that, our prices will conform to what is obtainable in the industry but will ensure that within the first 6 to 12 months our products are sold a little bit below the average prices of various Electric brands in the United Republic of Tanzania. We have put in place business strategies that will help us run on low profits for a period of 6 months; it is a way of encouraging people to buy our new brands.

- **Payment Options**

At DuraPower Investment Limited, our payment policy is all inclusive because we are quite aware that different people prefer different payment options as it suits them. Here are the payment options that will be available in every of our outlets;

- Payment by cash
- Payment via Point of Sale (POS) Machine
- Payment via online bank transfer (online payment portal)
- Payment via Mobile money
- Payment via check (for wholesale distributors)

In view of the above, we have chosen banking platforms that will help us achieve our payment plans without any itches.

Generating Funding / Startup Capital for DuraPower Investment Limited

DuraPower Investment Limited is a business owned by Mr Liu Jinqiao and Lin Qiuhua . They do intend to welcome any external business partners, that is why they have decided to not restrict the sourcing of the start – up capital.

These are the areas we intend generating our start – up capital;

- Generate part of the start – up capital from personal savings and sell of stocks
- Source for soft loans from family members and friends
- Apply for loan from Equity Bank

N.B: We have been able to generate about \$200,000 from the shareholders.

DuraPower Limited Production Business Plan – Sustainability and Expansion Strategy

The future of a business lies in the numbers of loyal customers that they have the capacity and competence of the employees, their investment strategy and the business structure. If all of these factors are missing from a business (company), then it won't be too long before the business close up.

One of our major goals of starting DuraPower Investment Limited is to build a business that will survive on its own cash flow and also with the need for injecting finance from external sources once the business is officially running.

We know that one of the ways of gaining approval and winning customers over is to retail our Electricals and other products a little bit cheaper than what is obtainable in the market and we are well prepared to survive on lower profit margin for a while.

DuraPower will make sure that the right foundation, structures and processes are put in place to ensure that our staff welfare are well taken of. Our company's corporate culture is designed to drive our business to greater heights and training and re – training of our workforce is at the top burner.

As a matter of fact, profit-sharing arrangement will be made available to all our management staff and it will be based on their performance for a period of three years or more. We know that if that is put in place, we will be able to successfully hire and retain the best hands we can get in the industry; they will be more committed to help us build the business of our dreams as we are going to be environmental conservers provide employment opportunities to Tanzanians as a country for example in our sites or production points we shall be employing over 30 people, increasing foreign of exchange since a lot of sources of incomes will be coming from Outside Tanzania since we have a room of wooing other investors.

DuraPower Business Plan SWOT – Economic Analysis

Starting an Electric Manufacturing company can't be said to be a difficult business venture but at the same time, it is a business that requires thorough economic analysis – feasibility studies and market survey and if you are looking towards making profits in the industry.

Part of what you need to focus on in this line of business is how to build a standard Electric manufacturing machines and work tools, experienced workforce, enough area for operations a robust distribution networks, branding and of course how to maintain your machinery and equipment and to take care of your overhead before your business breakeven. Other cost that should be considered during planning and budgeting are supply of key raw materials, and fuel and maintenance costs etc.

Lastly, there are a number of permits that are required to run an Electric manufacturing company in the United Republic of Tanzania, East Africa and in the world, and of course there are also public Environmental laws to observe.

DuraPower Business Plan SWOT Analysis

We know that if a proper SWOT analysis is conducted for our business, we will be able to position our business to maximize our strength, leverage on the opportunities SWOT

SWOT is used to analyze how e-commerce will impact our traditional Electric manufacturing. SWOT is a kind of strategic analysis method. Comprehensive evaluation and analysis of the advantages, disadvantages, opportunities and threats of the analyzed objects.

SWOT stands for strengths, weaknesses, opportunities, threats. SWOT can clearly determine the advantages of the analyzed objects through the combination of internal resources and external environment. Adjusting methods, resources to ensure the implementation of the object which is analyzed to achieve the desired goal in strategic and tactical levels

SWOT analysis, also known as the situation analysis, also known as the Boston matrix is a reality method with more objective and accurate analysis.

Through comprehensive evaluation and analysis of strengths, weaknesses, opportunities and threats, the enterprise is adjusted to achieve the goals of the enterprises that will be available to us, mitigate our risks and be well equipped to confront our threats.

DuraPower Investment Limited employed the services of an expert HR and Business Analyst with bias in start – up business to help us conduct a thorough SWOT analysis and to help us create a business model that will help us achieve our business goals and objectives.

This is the summary of the SWOT analysis that was conducted for Durapower Investment Limited

- **Strength:**

Currently, there have been some Electric e-commerce sites, such as Kaymu.co.tz., Kivuko.com, Jumia.co.tz, inauzwa.com,shopping.co.tz and many others in Tanzania,EastAfrica,Africa and in the world.

There also an ordinary e-commerce site, which belongs to the enterprise production reception system. The web pages provide industry information, company profiles, product display and other simple functions. They do not relate to Electricals capacity, manufacturing and distribution and other internal business processes.

The Electric manufacturing companies are not focused on the network sales model. Most of them are concentrated on the computer-aided design of products, technological research. Part of them relates to the sales of the product, but not focus on the products sales, capacity, production and distribution and other business process's organic unity.

- **Weakness:**

A major weakness that may count against us is the fact that we are a new Electric manufacturing company and we don't have the financial capacity to engage in the kind of publicity that we intend giving the business especially when big names like Thermal Supplies & Services, Admire Company ,Freedom Electronics and other electric manufacturing companies are already determining the direction of the market in Dare salaam and other parts of Tanzania.

New product standards will change the standards of technology in the factory and also the raw material. It means new standards will improve production budget. Some product standards and related testing standards in Tanzania have recently been updated

Opportunities

The opportunities for electric manufacturing companies with a wide range of electric products are enormous. This is due to the fact that around 57% of Tanzanians and people from all over the world can afford to buy Electricals.

Focusing on the shortage of traditional marketing model, it brings new mode which based on the internet for products.

Concentrating on demand of customers, this model integrates potential innovation of customers through the advantages of the network efficiently.

As a result of that, we were able to conduct a thorough market survey and feasibility studies so as to position our business to take advantage of the existing market for Electricals and also to create our own new market. We know that it is going to requires hard work, and we are determined to achieve it.

- **Threat:**

We are quite aware that just like any other business, one of the major threats that we are likely going to face is economic downturn and unfavorable government policies. It is a fact that economic downturn affects purchasing power. Another threat that may likely confront us is the arrival of a new Electric manufacturing company in same location where ours is located.

Financial Projection of DuraPower Investment Limited;

Starting a standard Electric manufacturing company is indeed a capital-intensive business. This is so because the amount required to set – up an electric Manufacturing Company is not a piecemeal. The bulk of the

start – up capital will be sent on leasing or acquiring a site, machines and equipment raw materials and other resources.

Aside from that, you are not expected to spend much except for purchase and servicing of distribution trucks, paying of your employees and utility bills. This is the key areas where we will spend our start – up capital;

DuraPower Business Plan – Start-Up Expenditure (Budget)

- The Total Fee for Registering the Business in BRELA \$244.
- Legal expenses for obtaining licenses and permits as well as the accounting services (software, P.O.S machines and other software) –\$1300.
- Marketing promotion expenses for the grand opening Little Egret Investment Company in the amount of \$3,500 and as well as flyer printing (2,000 flyers at \$0.44 per copy) or the total amount of – \$3,580. •Cost for hiring Business Consultant – **\$500.**
- Insurance (general liability, workers’ compensation and property casualty) coverage at a total premium – **\$2,400.**
- Cost for payment of rent for 12 months \$8571
- Cost for construction of a standard Electric manufacturing plant – **\$65000.**
- Other start-up expenses including stationery (\$500) and phone and utility deposits (**\$2,500**).
- Operational cost for the first 3 months (salaries of employees, payments of bills et al) – **\$8,810**
- The cost for Start-up inventory (raw materials) – **\$6000**
- Storage hardware (bins, rack, shelves, food case) – **\$1000**
- The cost for counter area equipment (counter top, sink, ice machine, etc.) – **\$9,500**
- Cost for store equipment (cash register, security, ventilation, signage) – **\$13,750**

- Cost of purchase of distribution vans – **\$20,000**
- Printers, Telephone, Fax Machines, tables and chairs et al) – **\$10,000.**
- The cost of Launching a website – **\$600**
- The cost for our opening party – **\$10,000**
- Miscellaneous – **\$10,000**

We would need an estimate of **\$550,000 and above** to successfully set up our Electric Manufacturing plant in Dares salaam. Please note that this amount includes the salaries of all the staff for the first 3 month of operation.

DuraPower Investment Business Plan -Financial Projection Sources of Income

DuraPowert Investment Limited is established with the aim of maximizing profits in the electric manufacturing industry in both the Dares salaam and Tanzania and we are going to go all the way to ensure that we do all it takes to sell a wide range of Electricals to a wide range of customers.

DuraPower Investment Limited will generate income by selling the following products;

- Motors
- -Generators
- -Transformers
- -Batteries
- -Accumulators

- -Radios
- -Tvs
- -Laptops
- -Global position systems
- -Music players
- -Phones
- And other domestic devices

Sales Forecast

manufacturing site is centrally positioned and easily accessible, you will always attract customers cum sales and that will sure translate to increase in revenue generation for the business.

We are well positioned to take on the available market in Dares salaam and every city where our Electricals will be sold and we are quite optimistic that we will meet our set target of generating enough income / profits from the first six month of operations and grow the business and our client base.

We have been able to critically examine the Electric manufacturing industry and we have analyzed our chances in the industry and we have been able to come up with the following sales forecast. The sales projection is based on information gathered on the field and some assumptions that are peculiar to start-ups in Dares salaam.

Below is the sales projection for DuraPower Investment Limited, it is based on the location of our business and other factors as it relates to small scale and medium scale Electric Manufacturing company start – ups in Tanzania;

- **First Fiscal Year-:** \$30,396 • **Second Fiscal Year-:** \$250,000
- **Third Fiscal Year-:** \$750,000

N.B: This projection is done based on what is obtainable in the industry and with the assumption that there won't be any major economic meltdown and there won't be any major competitor

offering same products and customer care services as we do within same location. Please note that the above projection might be lower and at the same time it might be higher.

Check List / Milestone
