Dar es Salaam

Dear Sir/Madam

Subject: Application for Registration with Tanzania Investment and Special Economic Zone Authority

I am writing on behalf of Songwe Helium Limited, a joint venture company between the Government of the United Republic of Tanzania and Helium One Global Limited (*Helium One (Njozi) Limited and Helium One (Gogota) Limited*), to formally apply for registration with the Tanzania Investment Centre (TIC) to obtain a Certificate of Incentive.

Songwe Helium Limited is a joint venture company established to explore, mine, process, and market helium and associated gases in Tanzania. The company holds Mining Licence No. ML 0795/2025, granted on July 4, 2025, under Section 59(2) of the Mining Act, Cap. 123, covering an area of approximately 480.1853 square kilometres, located within Momba and Sumbawanga Urban Districts, Songwe and Rukwa Regions.

The licence grants Songwe Helium Limited the exclusive right to search for, mine, process, and market **helium, hydrogen, nitrogen, argon, and other associated minerals**.

We acknowledge the vital role of the Tanzania Investment and Special Economic Zone Authority in supporting investments that foster Tanzania's socio-economic growth. Through TIC registration, Songwe Helium Limited seeks to:

- i. Access investment incentives and benefits available to certified investors.
- ii. Enhance the company's recognition and credibility, both locally and internationally.
- iii. Facilitate partnerships and collaborations that strengthen project execution and ensure long-term sustainability.
- iv. Align fully with Tanzania's investment policies, laws, and growth initiatives.

Songwe Helium Limited is fully committed to complying with Tanzania's mining and investment laws, including obligations under the Mining Act, Environmental Management Act, Local Content Regulations, and Corporate Social Responsibility frameworks. We strongly believe this investment will significantly contribute to Tanzania's industrial growth, foreign exchange earnings, and employment opportunities.
