Dear Sir/Madam

RE: APPLICATION FOR REGISTRATION OF CONDUCTORS AND CABLE MANUFACTURING FACTORY

We hereby submit our formal application for the registration of our proposed Conductors and Cable Manufacturing factory with the Tanzania Investment and Special Economic Zones Authority (TISEZA).

JS ELECTROMECC LIMITED is currently in the advanced stages of establishing a modern manufacturing facility dedicated to the production of conductors and cables. The factory will be located at **Plot No. 32, Vikawe, Kibaha, Pwani Region**, strategically positioned to serve both the domestic infrastructure market and regional export markets.

Key Project Highlights

- a) **Total Investment Capital:** USD 2,234,213.98
- b) **Anticipated Employment:** 30 direct jobs for Tanzanian citizens
- c) **Primary Products:** ACSR conductors and ABC cables

This investment aligns with national goals to strengthen local manufacturing capacity, reduce import dependence, enhance energy infrastructure reliability, and support industrialization under Tanzania's Development Vision 2050.

We kindly request your favourable consideration of our application. JS ELECTROMECC LIMITED remains fully available for any additional information, clarifications, or a site visit as may be required by your esteemed office.

Thank you for your attention and look forward to a positive response.

Yours faithfully,

JS Electromec Limited

John Ngandaku

Managing Director
