The Director General
Tanzania Investment and Special Economic Zones Authority
P. O. Box 938
DAR ES SALAAM, Tanzania

Dear Director General,

RE: APPLICATION FOR CERTIFICATE OF INCENTIVE: ESTABLISHMENT OF A CLIMATE-RESILIENT, NON-GMO MAIZE SEED ENTERPRISE

On behalf of Positive International Limited, I am writing to formally apply for a Certificate of Incentive for a new venture: the establishment of a climate-resilient, non-GMO maize seed multiplication and development enterprise in Tanzania.

Our vision is to become a leading developer and distributor of high-yielding, drought-resistant maize seed, with a core mission to enhance national food security and improve the economic resilience of smallholder farmers against climate change. The project targets the vast Tanzanian maize market, where a significant yield gap exists. By introducing genetically superior, climate-resilient seed, we can unlock substantial economic benefits for the nation's nearly 4 million farming households.

We are dedicated to building a sustainable and farmer-centric business that contributes directly to Tanzania's agricultural ambitions. The complete business plan is attached for your review. We look forward to your positive consideration.

Yours faithfully,

POSITIVE INTERNATIONAL LTD.
