Ref: Application for Certificate of Incentives - Investing in Biofuel Production for Clean Cooking

This letter is to formally submit an application for a Certificate of Incentives for our project, **Investing in Biofuel Production for Clean Cooking**, located in Ludiga village, Chalinze district and Pwani region as per the provisions of the Tanzania Investment Act.

JV Biotech Enterprises Company Limited is embarking on a biofuel production project aimed at promoting clean cooking energy. The company has secured initial funding of US **\$46,960.0** out of US **\$300,00.0** total project investment for the first phase from UNIDO/TIB and two contracts to supply over 1.5 million liters of biofuel to Bukona Agro-processor Ltd and Consumer's Choice Limited (CCL) for use in their cookstoves. This project will focus on converting biomass resources such as cassava chips, molasses, and maize into Denatured Ethyl Alcohol (DEA) for cooking purposes and Extra Neutral Alcohol for food-grade applications. The company plans to install a micro-distillery with a minimum capacity of 1,000 liters of bioethanol per week

This project is expected to contribute significantly to Tanzania's economic development. By creating jobs, generating demand for cassava chips, and utilizing agricultural waste, it will stimulate the local economy and contribute to the country's GDP growth. Furthermore, the project will promote the use of clean cooking energy, reducing reliance on traditional fuels and contributing to a healthier environment.

We have enclosed the following documents with this application:

- Company registration documents (Memorandum, TIN Certificate, Certificate of Incorporation)
- Project feasibility study
- Project Business plan

- Board Resolution
- Application form for Certificate of Incentives
- The contract between JV Biotech and TIB under Bioenergy Incentive – UNIDO as evidence of sufficient capital for implementing the project
- Evidence of project location – land acquisition
- And other relevant documents

We kindly request that you review our application and grant us the necessary incentives to facilitate the successful implementation of **Investing in Biofuel Production for Clean Cooking**.

We are available to provide any further information or clarification as may be required.

Thank you for your time and consideration.

Sincerely,

.....

Victor Kabegu

Chief Executive Officer
