December 12, 2025

To,  
Executive Director  
Tanzania Investment Center  
P. O. Box 938  
Dar – es – Salaam,  
Dear Sir/Madam,

**RE: REQUEST FOR THE CERTIFICATE OF INCENTIVES**

Kindly refer to the above captioned subject matter

Kamal Steels Limited is one of Tanzania's leading manufacturers of Thermo-Mechanically Treated (TMT) reinforcement bars, operating with modern hot-rolling equipment and serving critical infrastructure sectors including bridges, roads, ports, industrial structures, and high-rise buildings. We have three different manufacturing units. First unit is Steel Melting Plant in which we are melting steel scrap. Second unit is Continuous Casting Machine in which we are casting billets. And the third unit is Steel Rolling Mill in which we roll billets and make high tensile steel bar of different sizes.

Currently we are upgrading and expanding the Rolling Mill so as to increase the rolling speed by 30-40%. The expansion will help us increase our production from 5,000 – 6,000 MT to 7000 – 8000 MT per month yielding an incremental gain of approximately 1,500 MT monthly.

We are writing this letter to request for the Certificate of Incentives for this project. The projects aim at increasing the speed of rolling mill, lowering energy losses and improving the production. The project directly supports the Tanzania's growth in infrastructure, manufacturing and employment.

For further assistance kindly contact the following people;

Name: Consolata Mosha  
Designation: Administration Manager  
Mobile no: 0684488422

Name: Irene Sambu

Designation: Administration Officer

Mobile no: 0763842563

Your kind response in this matter will be highly appreciated.

Thank You,  
Best Regards,

**Kamal Steel Ltd**  
Director.
