Dear Sir,

Re: Request for Amendment of Certificate of Incentive No: 20223725

Please refer to the heading above. SSI ENERGY TANZANIA LTD a company registered in Tanzania with registration number **132412** of **10th January 2017** and registered by Tanzania Revenue Authority with **TIN 132-853-665**, **VAT 40-042660-B** and Provisional Electricity Generation Licence **No.PEGL-2022-001** ("SSI"). SSI has a TIC approved project with Certificate of Incentives No **20223725** with and implementation period between **19 March 2022 and 28 March 2025** and an operative date of **28 March 2025**.

SSI's Certificate of Incentives relates to the objective of establishing and operating a 10MW Solar Power Station at Kahama. SSI is developing the project at Kahama in order to export electricity to the Tanzania Electric Supply Company Limited ("TANESCO") under a Standardized Power Purchase Agreement ("SPPA") signed on 29th December 2020 between TANESCO and SSI.

We wish to submit a request for the amendment of the Certificate of Incentives No 20223725. While SSI has compensated the required land, prepared the land for construction and construction has commenced, SSI now expects to reach commercial operations in February 2026 at the latest. The main reason for this amendment is that the previous expectation of completion in December 2024 was further delayed due to issues concerning the provision of debt funding by TIB Development Bank ("TIB"). Progress has been made, with approval from TIB's technical committee and Board sub-committee and we are expecting to close the finance issues by the end of this month March 2025. Final equipment can then be purchased to complete the project.
