DAR ES SALAAM, TANZANIA.**

DEAR SIR/MADAM,

RE: APPLICATION FOR RENEWAL OF CERTIFICATE OF INCENTIVES FOR PHOSE FOR AFRICA

I am writing to formally apply for the renewal of the Certificate of Incentives granted to Phose for Africa, based in Kimbiji. The current certificate, issued by the Tanzania Investment Centre (TIC), is approaching its expiration, and we are seeking an extension to continue accessing the benefits associated with it.

Justification for Renewal Request:

1. Ongoing Project Implementation and Planned Expansion:

Over the course of our investment, Phose for Africa has consistently worked toward building a stable and impactful business presence in the Kimbiji area. Despite encountering unforeseen challenges—such as global logistics issues and delays in sourcing critical machinery—significant milestones have been achieved. We are now entering the final stages of setup and expect to commence full-scale operations soon.

2. Positive Impact on the Local Community:

Our company is deeply invested in supporting the socio-economic development of the Kimbiji region. We have already provided employment opportunities for local residents and have been actively involved in community initiatives, including support for educational institutions. Extending the Certificate of Incentives will allow us to continue and deepen these efforts, fostering long-term partnerships with the community.

3. Future Investment Commitments:

The renewal of our certificate will enable us to expand our current operations by introducing new production lines and improving our manufacturing capabilities. This growth will not only generate more jobs but also promote value addition through the use of local raw materials and workforce, aligning with national development priorities.

In light of the above, we believe that an extension of our Certificate of Incentives is in alignment with the objectives of TIC and will enhance the realization of our investment's full potential in Tanzania. We remain committed to regulatory compliance and to

with national development priorities.

In light of the above, we believe that an extension of our Certificate of Incentives is in alignment with the objectives of TIC and will enhance the realization of our investment's full potential in Tanzania. We remain committed to regulatory compliance and to contributing positively to the country's economic transformation.

We respectfully request that TIC reviews our application and grants an extension of the Certificate of Incentives. We are ready to provide any further information or documentation needed to support this request.

Thank you for your time and consideration. We look forward to your favorable response and to continuing our productive relationship with TIC and the Government of Tanzania.

Yours sincerely,

CHOI HYUN
