Application for Certificate of Incentives for Establishment of Nickel Processing Plant in Zamahero, Dodoma*

Dear Sir/Madam,

We are writing to express our intention to invest in the mining and mineral processing sector in Tanzania by establishing a state-of-the-art nickel processing plant in Zamahero, Dodoma. Zhong Zhou Mining Company is a reputable global leader in mining and mineral processing, committed to sustainable and innovative industrial practices.

Tanzania's abundant natural resources and favorable investment climate have inspired us to invest in the nickel sector, which we believe will significantly contribute to the nation's industrialization goals, create employment opportunities, and enhance economic growth.

As a demonstration of our commitment, we have conducted preliminary feasibility studies and engaged with relevant stakeholders to ensure the project aligns with Tanzania's development goals and environmental regulations. Our proposed facility will leverage advanced technology to maximize efficiency and ensure environmentally friendly operations.

In line with our investment plans, we kindly request the Tanzania Investment Center to issue us a *Certificate of Incentives*, as provided under the Tanzania Investment Act of 1997. This certificate will

enable us to benefit from the incentives and support mechanisms designed to facilitate foreign investment in Tanzania.

We are confident that this partnership will bring mutual benefits to both parties, fostering economic growth and solidifying Tanzania's position as a hub for mining and industrial development.

We remain at your disposal for any additional information or documentation required to support this application. Thank you for your consideration, and we look forward to your positive response.

Yours faithfully,

Li San Hong

Managing Director

Zhong Zhou Mining Company
