Dar es Salaam

Application for registration for TISEZA

Dear Sir/Madam,

We hereby submit our Application for the TISEZA Registration for Chabri Energy Company Limited.

Chabri Energy is transforming everyday cooking in Tanzania by replacing charcoal with affordable, clean briquettes made from recycled biomass combined with improved cooking stoves. With the production of Bio-briquettes and the stoves we reduce CO₂ emissions, save money and mitigate health care issues based on dirty cooking fuels — building a profitable and scalable clean-energy business for a sustainable future.

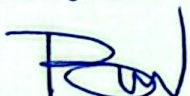

We hereby attach the required application documents for your consideration, including:

- Project Business Plan
- TIC Application Forms
- Company's Memorandum and Articles of Association
- Evidence of sufficient finance capital available to implement the project
- Evidence of land ownership for the location of the project
- Company Board Resolution to register the project with TISEZA
- Receipt for payment of expenses Tshs 4,000,000

We kindly request TISEZA's review and approval of this application. We remain available to provide any additional information or clarification that may be required during the review process.

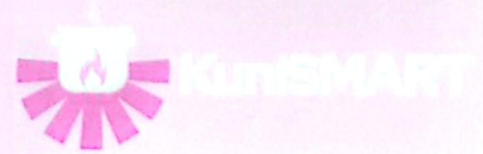

Thank you for your consideration.

Kind regards,

Bernard Makachia,
CEO & Founder of Chabri Energy Company Ltd.
