8TH MAY 2025

Dear Sir

REF: APPLICATION FOR THE CERTIFICATE OF INCENTIVES.

We Galaxy Food and Beverages Limited a registered company located in Arusha region. We are one of the biggest processors in the dairy industry producing milk and milk products with the brand name of Kilimanjaro fresh.

We are humbly writing this letter to apply for the certificate of incentives to our new transport project to be operated under the same company Galaxy Food and Beverages Ltd.

The company is currently undergoing a multi-million US dollar investment in producing and selling of Carbonated Soft Drinks, Energy drinks and drinking water in which we expect to produce and distribute more than 18,000,000 liters per annum.

The new investment is expected to produce new 60 direct employments and 15 indirect employments during its inception stage. Also, this investment will generate more revenue to the government through direct taxes, indirect taxes and several government levies to be imposed by different regulatory authorities relating to our business.

The company has investment through directors' fund more than 1,000,000/= US dollar in the purchases of vehicles to be used in the distribution of our products from the point of production to difference locations where the company operates. The certificate of incentives under transport project will enable the company to enjoy the incentives to be given by our reputable government for the benefit of our country at large in the development of our economy as it will enable the company in accumulation of additional resources and extending its investment.

We hope that our request will be granted by your good office.

Managing Director
