RE: IMMO82 Record Management and Storage Limited VAT Exemption application

It is confirmed that we are in phase 2 of a 5-year project whereby we are constructing another warehouse on our owned land which is to be used for commercial purposes. The initial project started during 2021 with regards to the real estate development to build storage and record management warehouses. It is the aim to grow the real estate and commercial sectors to achieve our companies company activity to rent out these warehouses for rental income whilst also facilitating an increase in job opportunities as our sister company shall be renting the spaces developed and be employees' locals to assist with their business functions as per the below.

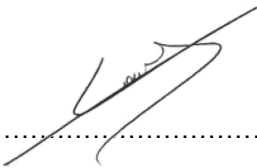

The number of employees at present is as follows:

Foreign: 3 employees Local: 17 employees Future: 4-5 more employees

As stated, phase one of the project is complete and we will now embark on phase two, thus requiring an extension in the CIT as some of the materials to be used during the construction of this warehouse, more particularly, the steel which shall be purchased, require a valid CIT and ours expired after 3 years.

We trust you will find this in order and co tact us should you require anything further.

Yours faithfully,

.....

Director
