RE: REGIONAL APPROVAL OF LAND ALLOCATION FOR THE AGROFEED PROJECT

Refer to the heading above.

2. The Government of Tanzania has embraced an ambitious agenda to transform the nation into a leading crop production powerhouse on the African continent by 2030. Among the key regions driving this vision is Ruvuma, owing to its exceptional agricultural potential—characterized by fertile soils and diverse agro-ecological zones ideal for the commercial cultivation of a wide range of crops. To fast-track the implementation of this national strategy, the region recognizes the critical role of private sector engagement and views strong support for investment and innovation as essential.

3. In the light of the foregoing, the Office of the Regional Administrative Secretary, Ruvuma Region, is pleased to convey our full support and formal approval of the allocation of the 5000 hacters of land to Agrofeed Products International Limited,in Ruvuma Region.

4. This allocation is granted to facilitate the launching of your innovative and sustainable agriculture project, which is expected to play a vital role in advancing our National and regional priorities for economic growth, youth employment and food security resilience. Nonetheless, the land allocation will be fully activated upon your submission of sufficient proof of funding as a demonstration of the capacity to execute the project at scale and thus significantly contribute to the National Government Agenda mentioned above.

5. We thank you for choosing our Region for investment and reaffirm our readiness to support your efforts in building a sustainable and prosperous future for our communities.

6. Respectfully,

A handwritten signature in blue ink, appearing to be 'J. Mwankhoo', with a large loop on the left and a horizontal line extending to the right.

Jumanne A. Mwankhoo
**Ag. REGIONAL ADMINISTRATIVE SECRETARY
RUVUMA**
