Dear Sir/Madam,

## **RE: INTRODUCTION AND PROJECT EXPANSION – MANUFACTURING AND SUPPLY OF WOODEN POLES**

On behalf of Sheda General Supplies Ltd, I am pleased to introduce our company and formally submit our intention to expand our existing investment project in the area of manufacturing and supply of treated wooden poles.

Sheda General Supplies Ltd is a Tanzanian-registered company engaged in the production and distribution of high-quality wooden poles used primarily for utility and infrastructure development. Our initial investment, registered with TIC under certificate No. 041261, has enabled us to successfully set up operations and supply various clients both locally and regionally.

Due to increasing market demand and the need to support national infrastructure initiatives including rural electrification, telecommunication expansion, and related development projects, we are now seeking to expand our project. The proposed expansion includes:

- Production capacity
- Establishment of new harvesting and sourcing partnerships
- Acquire equipment and vehicles to facilitate the project
- Creation of additional employment opportunities within the community

We remain committed to adhering to national investment policies and environmental standards and are confident that this project expansion aligns with Tanzania's industrial development goals.

We kindly seek TIC's support and facilitation in registering this project expansion and look forward to your guidance on the next steps.
