Dear Mr. Gilead Teri,

RE: APPLICATION FOR REGISTRATION AND CERTIFICATE OF INCENTIVES.

On behalf of OS GROUP CARGO LTD, I am pleased to submit this application for the registration of our building and construction operations with the Tanzania Investment Centre (TIC) in order to qualify for the Certificate of Incentives under the Tanzania Investment Act.

OS GROUP CARGO LTD is a dynamic company engaged in building and construction projects, with capabilities covering a wide range of works including:

- Construction of all types of non-residential buildings such as hospitals, schools, office buildings, hotels, stores, shopping malls, and restaurants.
- Development of infrastructure works including motorways, roads, streets, vehicular and pedestrian ways, railways, and subways.
- Wholesale construction materials to support the industry and ensure availability of quality materials.

As part of our expansion strategy, we intend to procure the necessary equipment, tools, and machinery that will allow us to execute these projects to the highest standards of safety, quality, and efficiency, in line with both national regulations and international best practices.

This investment will generate new job opportunities, enhance skills development within our workforce, and contribute significantly to the socio-economic development of our region. Furthermore, it directly supports the government's industrialization and infrastructure development agenda by promoting modern, sustainable, and cost-effective construction practices.

We are therefore seeking the incentives offered by TIC to facilitate the smooth execution of this initiative, particularly in acquiring construction machinery and equipment, improving our operational capacity, and ensuring compliance with industry-leading standards.
