RE: PROJECT REGISTRATION FOR INDUSTRIAL PARK WITH TISEZA.

Dear Sir.

This has reference to the above captioned matter.

We, Ming Xin Company Limited, apply before your good office to register our Industrial Park project with your good Authority.

The company was once registered with the Export and Processing Zones Authority (EPZA) under the Special Economic Zones Scheme for establishment of SEZ Industrial Park and was issued with the Developer's License No. 17 which is currently expired.

Due to the nature of the project and for a purpose of widening the scope of our investment, we intend to change the mode of investment scheme from SEZ to a general scheme to allow and accommodate different investor who invests in different schemes to operate to our well established and constituted Industrial Park.

Therefore, it is with great enthusiasms we apply to register our project with the Tanzania Investment and Special Economic Zones Authority (TISEZA) under a general scheme for the establishment and operation of an industrial park.

We anticipate that our request will be promptly and positively considered.

**You Zujie,
Managing Director.**
