Dar es Salaam, Tanzania

Dear Sir/Madam,

RE: APPLICATION FOR THE CERTIFICATE OF INCENTIVES AND RECOGNITION AS A SPECIAL STRATEGIC INVESTMENT

Reference is made to the above subject.

We hereby submit our formal application for the issuance of a Certificate of Incentives and recognition as a Special Strategic Investment, in accordance with the revised provisions of Section 21(1) and the newly enacted Tanzania Investment and Special Economic Zones Act, 2025.

Tembo Nickel Corporation Ltd (TNCL) was established pursuant to a Framework Agreement signed in 2021 between the Government of the United Republic of Tanzania (16%) and Kabanga Nickel Corporation Limited (84%), for the development of the Kabanga Nickel Deposit. The project is located in Ngara District, approximately 50 kilometres south of Ngara town in the Kagera Region.

The Kabanga Nickel Project represents a nationally significant mining initiative with long-term potential to contribute to economic transformation, industrial development, employment generation, and technological advancement. Based on these characteristics, we believe that TNCL fully meets the criteria to be recognized as a Special Strategic Investor.

In line with TIC requirements, please find enclosed all the relevant supporting documents to facilitate the processing of our application.

For further information, clarification, or follow-up regarding this application, please contact the following authorized representatives:

- 1. Mr. Benedict Busunzu**
