Our Refer: EZTZ/TIC/EXT/0426

*Dear Sir/Madam,*

**REF: Request for Extension of Certificate of Incentives (COI) and change of company name as Enza Zaden Tanzania Limited (TIN 101-811-301)**

We write to formally request the Extension of Certificate of Incentives (COI) for Enza Zaden Tanzania Limited for our ongoing project and operations and also bring into your attention of our operational challenges (please refer EZTL progress report).

We refer to the Certificate of Incorporation (COI) bearing reference number 20225775, dated 24 May 2022, which was granted for a period of three (3) years and is valid until 23 May 2025.

Due to the project being in its final stage and considering the current operational challenges, we kindly request your approval for an extension of the COI for a further period of one (1) year beyond the existing validity.

In addition, we wish to inform you that our company name has recently been changed to Enza Zaden Tanzania Limited. Accordingly, we request you to update your company records/portal to reflect the change from Enza Zaden Africa Limited to Enza Zaden Tanzania Limited.

Enza Zaden Tanzania Ltd is a registered company engaged in the production and processing of hybrid vegetable seeds. Our operations are based in Nduruma, along Nelson Mandela Road, Arusha. We are a wholly owned subsidiary of Enza Zaden in the Netherlands, and all seeds produced at our facility are exported exclusively to our parent company.

Enza Zaden Tanzania Ltd produces high quality hybrid vegetable seeds, and our production is continuous throughout the year, employing over 419 staff members. The seeds are cultivated in state-of-the-art greenhouses and processed under the Global Seed Health Program (GSPP), adhering to stringent hygiene protocols to prevent the spread of seed-borne diseases.

We recently semi-completed two high-tech greenhouses with an investment value of **EUR 8 million (TZS 20.3 billion)**, creating 100 new jobs in Tanzania.

In addition, we have decided to go for one more new investment manufacturing project under high tech condition for seed production and processing for high quality hybrid vegetables of the farm where we still have the additional land for development for the increasing demands of the market. The amount involved is around **EUR 1 million** (Exceeds the Minimum requirement of USD 500K for considering the application) and it is being funded by an additional loan from parent company Enza Zaden Beheer B.V.

The basic advantage is the increase of capital base, and it shows the long-term intentions of the company to stay put in Tanzania creating more opportunities to all stake holders and local employment.

We have enclosed all the required documents as below.

1. A progress report on the project (the format of the progress report is attached for your reference)
2. Recent project photographs
3. A copy of the existing Certificate of Incentives
4. Certificate for Change of Name : Enza Zaden Tanzania Limited

We request your kind priority as we like the priority sector, all our produce has been exported, and our sole income has/had been from seed exports and going to be same for the future years to come.

Should you require any more details or explanations, do contact us to clarify to proceed faster and forward.

Yours faithfully,

Sridhar Badireddi  
Regional Finance Manager.  
Enza Zaden Tanzania Ltd.
