RE: WORLDVU TANZANIA LIMITED LICENSE APPLICATION FOR THE EUTELSAT-ONEWEB SNP EARTH STATION IN TANZANIA

Reference is made to your letter dated 12 February 2026 together with the meeting held between the Tanzania Communications Regulatory Authority (TCRA) and you regarding the above subject matter.

2. Kindly be guided as follows:

- (i) For the proposed installation, operation and management of the feeder link capacity to Satellite Earth Station Worldvu Tanzania Limited will need to obtain an International Network Facility Licence. In case that the terrestrial connectivity component is provided by Worldvu Tanzania Limited they will also need National Network Facilities Licence as well.
- (ii) Eutelsat OneWeb will need to apply for the satellite landing rights Authorisation to be able to offer satellite capacity exclusively to licensed entities. This Authorisation does not extend to the direct provision of services to end-users within Tanzania.
- (iii) For provision of services through licensed distribution partners, those selected partners need to have the following Licences and permissions:

- a) **Application Service Licence and Network Service Licence** – to enable the provision of satellite services on both retail and wholesale bases.
- b) **Network Facilities Licence** – to facilitate the distribution partner's Local Point of Presence (PoP) and direct connectivity to the SNP Earth Station for the provision of services within Tanzania.
- c) **Type Approval Certification** – for the satellite user terminal equipment.

3. Based on the guidance provided above, you may proceed with the application for the appropriate Licenses through our online Tanzanite Portal www.tanzanite.tcra.go.tz.

4. For any further queries, please do not hesitate to contact TCRA via our help desk www.dawatilahuduma@tcra.go.tz or 080008272.

5. Regards,

Dr. Jabiri K. Bakari
DIRECTOR GENERAL
