PROGRESS REPORT

1. Panned activities for the period

Yemehe Investment Limited established a plastic recycling project aimed at addressing environmental pollution caused by plastic waste while creating economic value from recycled materials. The project contributes to environmental conservation and supports sustainable waste management in Dar es Salaam.

2. Achievements made on the project implementation to date

The project site located at Plot No. 2046 Block E, Kunduchi in Kinondoni District has been secured for the recycling operations. Basic site preparations including fencing, storage space for plastic waste, and working areas for recycling equipment have been established.

During the operations the Company has acquired essential recycling equipment including:

- ✓ Plastic shredding machines
- ✓ Washing tanks
- ✓ Drying equipment
- ✓ Plastic pelletizing machines

All these machines have been used for processing collected plastic waste into reusable plastic pellets.

6. Problems and Solutions

Despite the progress made, the project has faced several challenges including:

- ✓ Limited capital for expansion
- ✓ High cost of recycling equipment
- ✓ Irregular supply of plastic waste materials
- ✓ Energy costs for operating machinery
- ✓ Limited public awareness about plastic recycling

7. Future Plans

- ✓ Increase plastic waste collection capacity
- ✓ Expand recycling machinery and processing capacity
- ✓ Establish partnerships with municipalities and environmental organizations
- ✓ Launch community awareness programs on plastic waste management
- ✓ Explore export opportunities for recycled plastic materials

7. Recommendations and any other comments

I recommend for Tic to continue collaborate with our company so as to achieve our objects in collaboration with the government of the United Republic of Tanzania.
