**12. Information on challenges encountered and interventions made in executing the project**

S/N	Challenges	Impact to the Project	Solutions	Action by TIC
i	Electricity power problem	Animal feed require 100% electric power to operate machine for manufacturing of animal feed and hatching the incubator machine	Use of generators which is very costly	Increase some incentives to investor to compensate the project cost
ii	Watertap problem	The production of animal feed and breeder flock farm need clean and health water for development of breeder flock	Use of drill water from borehole which is not sufficient	Increase some incentives to investor to compensate the project cost
iii	Road infrastructure problem	Factor affecting operation cost and inefficient due to infrastructure limitation	We use extra cost to reach our clients	Increase some incentives to investor to compensate the project cost
iv	Availability of raw material	The project facing the availability of raw materials from local market	We import the chick for breeder flock to our farm for the better product	Increase some incentives to investor to compensate the project cost

**13. Future Plans**

Backbone Tanzania Limited represents the potential of local animal feed manufacturing to drive aquaculture growth in Tanzania. The company's experience reflects the broader market challenges and opportunities facing the animal feed sector.

With targeted policy support, improved financing, and strong public-private collaboration, Backbone Tanzania can significantly expand its contribution to food security, employment, and economic development.

The company stands ready to partner with the Ministry of Livestock and Agriculture in advancing Tanzania's aquaculture and fish feed industry.

**14. General Comments and Recommendations**

TIC has been providing tremendous support for Backbone Tanzania Company, We as a company look forward to grow better with support of TIC and Tanzania.
