19th February 2026

The Director General,
Tanzania Investment and Special Economic Zones Authority (TISEZA),
P.O. Box 938,
Dar es Salaam, Tanzania.

RE: APPLICATION FOR PROJECT EXPANSION AND OF CERTIFICATE OF INCENTIVES NO. 040501-E3.

Kilimanjaro Cables (T) Limited is a company registered under the laws of the United Republic of Tanzania (Certificate of Incorporation No. 40786). We are currently implementing an expansion project for the manufacturing of electrical conducting cables, transformers, and related products.

Following our board's resolution and the five-year strategic business plan for 2026-2030, we officially apply for a project expansion under our existing Certificate of Incentives No. 040501-E3. The total investment for this expansion is estimated at USD 30,000,000 (United States Dollars Thirty Million), which will facilitate the installation of modern machinery.

Furthermore, we wish to formally notify your office of a change in the project's physical scope. While our current Certificate of Incentives reflects Plot Number P.12159 at Kigamboni Kimbiji, Dar es Salaam, the company has recently acquired and integrated additional adjacent plots to accommodate the increased production facilities.

We therefore request that the Certificate of Incentives to be updated to include the following newly added plots at Kimbiji, Kigamboni:

P. 24371, P. 24372, P. 24373, P. 24374

This expansion is projected to create approximately 3,000 direct employment opportunities and significantly enhance Tanzania's industrial capacity for power transmission and distribution equipment.

Email: info@afriCab.com Mobile: 255 767 215 206

Attached to this application are the project's updated business plan and the relevant ownership documents for the additional plots.

We look forward to your continued support in making this industrial vision a reality.

Yours Faithfully,

ALIASGAR HATIMALI EZZI
