**12. Information on challenges encountered and interventions made in executing the project**

| S/N | Challenges                                  | Impact to the Project                                       | Solutions   | Action by TIC |
|-----|---|---|---|---------------|
| i   | Unstable Electricity supply from TANESCO    | Affects production efficiency                               | We are planning to installing solar power systems             |               |
| ii  | Delays in container clearance at the port   | Impacting the timely arrival of raw materials and machinery | We are working with clearing agents to improve port processes |               |
| iii | Poor road conditions and traffic congestion | Slowing deliveries  | Purchasing additional trucks to maintain delivery efficiency  |               |
| iv  |   |   |   |               |

**13. Future Plans**

In December, Tazpack Industries Limited successfully achieved its production milestone of 1,000 tons per month, marking a major operational achievement for the company. Building on this strong foundation, our target for current year is to scale production to 2,500 tons per year, supported by the commissioning of our newly imported high-speed printing machine, which significantly enhances, efficiency and overall productivity. In addition to expanding output, we are strategically diversifying by establishing a dedicated mono carton (inner cartons) division and a label printing division, enabling us to broaden our product range and strengthen value addition. Our long-term vision is to become a one-stop shop for all packaging needs, providing our customers with fully integrated, high-quality packaging solutions under one roof.

.....

**14. General Comments and Recommendations**

TIC has been providing tremendous support for TAZPACK INDUSTRIES LIMITED, We as a company look forward to grow better with support of TIC and Tanzania.
