Golden Jubilee Tower,
1st Floor, Ohio Street,
Dar es Salaam,
Tanzania.

Dear Sir,

RE: APPLICATION FOR REGISTRATION OF THE HEAP LEACH GOLD PROCESSING PROJECT.

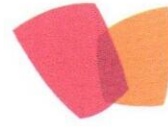

Tanzania Ore Mining Services Limited, a company duly incorporated in the United Republic of Tanzania with registration number 193033687, hereby submits this application for the registration of its Heap Leach Gold Processing Project under the Tanzania Special Economic Zones Authority (“TISEZA”).

The Company intends to establish a heap leaching gold processing facility for the treatment of gold-bearing materials and tailings at a mineral processing plant to be constructed at Shinganga, Ng’wakitolyo Village, Nyasubi Ward in Shinyanga Region.

As outlined in the Company’s business plan, Phase 1 of the project focuses on establishing a heap leach processing operation, including the installation of a 100-ton-per-hour crushing unit, agglomeration and stacking systems, engineered heap leach pads, cyanide irrigation systems, and pregnant/barren solution collection infrastructure.

This project is designed to support formalized, environmentally compliant, and scalable gold processing operations within Tanzania’s mining sector, with the initial processing capacity of approximately 600,000 metric tons per annum under a structured production model.

Shinyanga, District Shinyanga,
Ward Mwakitolyo
Tanzania.

TANZANIA ORE MINING SERVICES LIMITED

In alignment with the national industrialization agenda and the objectives of the Special Economic Zones Act, the Company seeks approval for project registration with TISEZA in order to access the incentives, facilitation, and regulatory support offered to qualifying industrial and value-addition projects.

We kindly request your office to review and approve this application at your earliest convenience.

Please find enclosed the following supporting documents:

1. Certificate of Incorporation – Tanzania Ore Mining Services Limited
2. Detailed Project Description – Heap Leach Gold Processing Facility
3. Comprehensive Business Plan and Financial Projections
4. Site Location Maps, Land Details, and Layout Plans
5. Technical Design Overview for Heap Leach Processing Systems
6. Environmental and Social Compliance Documentation
7. Shareholding Structure and Directorship Details
8. Any additional documents required by TISEZA

We remain available to provide any further information or clarifications that may assist with the evaluation of this application.

Thank you for your consideration.

Yours faithfully,

Mohamedmehdi Ebrahim Habib,
Director,
Tanzania Ore Mining Services

Shinyanga, District Shinyanga,
Ward Mwakitolyo
Tanzania.
